INTERNATIONAL PRELIMINARY EXAMINATION REPORT

I. Basis of the report					
1. With regard to the elements of the international application:*					
the international application as originally filed					
the description:					
pages , as originally filed					
pages , filed with the demand					
pages, filed with the letter of					
the claims:					
pages, as originally filed					
pages , as amended (together with any statement under Article 19					
pages, filed with the demand					
pages, filed with the letter of					
the drawings: pages , as originally filed					
filed with the demand					
pages, filed with the letter of, filed with the letter of					
the sequence listing part of the description:					
pages, as originally filed					
pages, filed with the demand pages, filed with the letter of					
2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is:					
the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).					
the language of publication of the international application (under Rule 48.3(b)).					
the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/ or 55.3).					
3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:					
contained in the international application in written form.					
filed together with the international application in computer readable form.					
furnished subsequently to this Authority in written form.					
furnished subsequently to this Authority in computer readable form.					
The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.					
The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.					
4. The amendments have resulted in the cancellation of:					
the description, pages					
the claims, Nos					
the drawings, sheets/fig					
This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**					
* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.16 and 70.17).					
** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.					

Y EXAMINATION REPORT

T/JP02/12822

v. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement				
1. Statement				
Novelty (N)	Claims	1-5	YES	
	Claims		NO	
Inventive step (IS)	Claims	1-5	YES	
	Claims		NO NO	
Industrial applicability (IA)	Claims	1-5	YES	
	Claims		МО	

2. Citations and explanations

The constituent feature of the subject matters of claims 1 to 5 of the present application, "a liquid medicine supplying device having a pump discharging a liquid received in a liquid tank, a filter connected to the pump via a pump outlet passage provided with a pump discharge-side valve for opening and closing the passage, a liquid discharge portion connected to the filter via a liquid discharge passage provided with a discharge valve for opening and closing the passage, and a vacuum source connected to the filter via an air vent passage provided with an air vent valve for opening and closing the passage, and a method for venting air from the liquid medicine supplying device," is not described in documents 1 and 2 listed below and does not appear to be obvious to a person skilled in the art. The feature could not have easily been derived from these documents, either.

Document 1: JP, 63-110636, A (NEC Corp.), 16 May, 1988 (16.05.88)

Document 2: JP, 5-103921, A (Miyazaki Oki Electric Co., Ltd., Oki Electric Industry Co., Ltd.), 27 April, 1993 (27.04.93)
